and English language

Subject:

Denying the validity of **the Croatian Accession**

Treaty to the European Union. -

This way we are officially, as directly interested, denying the validity of **the Croatian Accession Treaty to the European Union**, signed in Brussels on December, 9 2011, and

asking the authority of the Republic of Slovenia: **National Assembly and President of the Republic**, not to confirm (ratify) the Treaty because of the violations of criteria described in chapter 8 (Market Competition) and Chapter 23 (Judiciary and Fundamental Rights), followed by the following specific reasons:

(2)

1.

REFERENDUM ABOUT CROATIAN ACCESSION TO THE EUROPEAN UNION, THE CROATIAN PARLIAMENT ELECTIONS, ELECTION FOR THE PRESIDENT OF THE REPUBLIC OF CROATIA

Always the same scenario.

Excerpts from our lawsuit filed to the Municipal Court on January, 25 2012:

The subjected referendum

is immoral,

because 701.711 nonexistent voters participated on it:

"The State Election Commission (DIP) has received today from the Ministry of Public Administration closed list of voters for the parliamentary elections, which has 4.5 million voters, the DIP has confirmed tonight.

According to these data, the Ministry of Administration has announced that in the central archives are 4,504.081 registered voters, of which they were living in Croatia, 4,092.323, and in the Diaspora 411.758."

But, "In Croatia lives 4,290.612 inhabitants, according to a census published by the Central Bureau of Statistics."

From that there is "about 900,000 of those who do not have the right to vote because they are younger than 18 years."

The above shows the actual number of voters:

$$4,290.612 - 900.000 = 3,390.612 \text{ voters}$$

(3)

The State Election Commission of the Republic of Croatia, however, accepted the voters' lists with 701.711 nonexistent voters:

$$4.092.323 - 3,390.612 = 701.711 \text{ nonexistent voters}$$

On the referendum about the Croatian entry into the European Union participated 4,504.765 voters, of which for the Croatian accession to the European Union voted 1,299.008 voters.

However, if from the number of voters who voted for the Croatian accession to the European Union (1,299.008 voters) subtracts the number of stolen votes (nonexistent voters), we get the following number of voters who actually voted for the Croatian accession to the European Union:

$$1,299.008 - 701.711 = 597.297$$

Real referendum result:

* FOR accession to European Union	597.297 voters (47.91 %)
* AGAINST accession to European Union	649.490 voters (52.09 %)
* TOTAL number of voters	1,246.787 voters (100.00 %)

For the Croatian entry into the European Union voted only 47.91% of voters who actually voted.

On the referendum participated 4,504.765 voters, of which for the Croatian entry into the European Union - according to statements by the Central Election Committee of the Republic - voted 1,299.008 voters or 28.84%.

The lawsuit was rejected because the Croatian courts are not competent to review the legality of the election.

(4)

* * *

The same voter lists were used for the election of representatives to the Croatian Parliament (December, 3 and 4 2011), and for the appointment of the Government headed by **Zoran Milanović**, and the presidential elections (2010) on which for the Croatian President was elected **Prof. Ivo Josipović**.

2.

ROBBERY OF THE LJUBLJANSKA BANKA PROPERTY

Two years ago in Zagreb "Jutarnji list" we can read this:

"Slovenia is thereby insisting that in any further negotiations on the return of Ljubljanska banka, or on granting permission to work in Croatia for **Nova Ljubljanska Banka**, includes and 404 million euros of debt of Croatian companies to (old) Ljubljanska Banka. Director of Ljubljanska Banka **Borut Ožura** refused yesterday to tell us about which Croatian companies are concerned. - All information on this can be found in the judicial systems of both countries and any disclosure could be interpreted as pressure on the judiciary - said yesterday Ožura.

In the structure of the debt of Croatian companies to Ljubljanska Banka only is known that the "old" Ljubljanska Banka sued the Croatia to the European Court of Human Rights in Strasbourg because of the inability to collect debts IPK Osijek only. The damage according to the earlier statements in a procedure relating to enforcement against the IPK Osijek is, together with default interest, 49.3 million euros, while in another 9.2 million euros. "

Yes, that is true.

(5)

Dr. Tomislav Dragun explores this question in more detail. He has determined that the obligations of the IPK Osijek to Ljubljanska Banka have simply disappeared.

Ljubljanska banka is not among shareholders of IPK Osijek.

Shareholders of IPK Osijek after transformation

Dr. Tomislav Dragun has complete documentation about the transformation of IPK Osijek, which will be professionally processed and presented to the public.

Dr. Tomislav Dragun - as a work of authorship - developed the methodology for determining the obligations of the Croatian social enterprise, which had obligations to the Ljubljanska banka.

3.

PRIVATIZATION PLUNDER AND PERSECUTION OF Dr. TOMISLAV DRAGUN, PRESIDENT OF THE CROATIAN CIVILIZATION MOVEMENT FROM ZAGREB

Dr. Tomislav Dragun, president of the Croatian Civilization Movement, associations for the human rights protection, from February, 17 2003 following a combination of circumstances, not willingly, became **a witness to the greatest robbery** of national assets in the Croatian history, which **was carried out by Croatian political leaders** ("elite"), otherwise allocated in **two neo-communist parties**:: Croatian Democratic Union (HDZ) and Croatian Social Democratic Party (SDP).

(7)

It is, of course, about **the transformation and privatization** of the Croatian economy and in which Dr. Tomislav Dragun participated in over 120 individual cases.

Dr. Tomislav Dragun thought necessarily to inform Croatian and foreign public about that: **by writing books, analysis**, and various other elaborated materials and **submitting criminal charges** to the State Attorney's Office against the holders of these negative phenomena in the Republic of Croatia, as he undisputedly and documentary found:

a) the transformation and privatization had been carried out in a way that the value of social enterprises **was evaluated by the static** (buildings and land) method, rather than by economic (market) method, which was prescribed by the Law About Privatization and Transformation,

b) the transformation and privatization had been carried out so that it was enabled **a false internal recapitalization** on behalf of old workers (the poor), with the realization of discount on shares purchased in the transformation of enterprises, which was incredible **150% (one hundred fifty percent!)**, and that was made possible with special internal - accessible only to the chosen - Rules of the Croatian Privatization Fund, despite the legislation,

c) the transformation and privatization had been carried out so that it was done for a specially selected social enterprises **even before the Law About Privatization and Transformation** according to the "rapid" communist, on departure, "Marković's law",

d) the transformation and privatization had been carried out so the Croatian banks and insurance companies **were excluded** from the Law About Privatization and Transformation, and then in the "dark night" without any legal basis **yet privatized**,

e) enabling that way for the selected communist leaders to receive the so called managerial loans that were "insured" with mortgage-deposits on **bought, but unpaid shares**, with subsequent payment from dividends earned just from those **unpaid shares**.

(8)

f) the transformation and privatization had been carried out so that social enterprises **estimated "by eye" and sold for one Kuna**, because they allegedly were poor

g) with after their sale to selected buyers **had been be written off all tax and other obligations to the state.**

In addition, Dr. Tomislav Dragun is expertly analyzed, cleared, and disclosed robbery, in billions of Kuna, which was carried out:

h) in the Croatian Privatization Fund,

i) in the Croatian Homeland Fund for War Veterans and their family members,

j) in Privatization Investment Funds during the "coupon privatization".

Consequently, Dr. Tomislav Dragun "earned" on November, 30 2005 motion to indict (charge) from the State Attorney's Office because he had allegedly and unreasonably accused **honorable and respectable Croatian citizens** (among them: Dr. Ivo Sanader, Damir Polančec, Ivica Todorić, Prof. Dr. Andrija Hebrang, Šima Krasić, Miroslav Kutle, Milan Kovač, Damir Ostović, Krešimir Starčević, Mladen Bajić and others).

During the trial the State Attorney's Office changed its opinion, so instead of prison sentence requested psychiatric examination of Dr. Tomislav Dragun, and his deprivation of legal capacity in the form of a **"ban on writing lawsuits and criminal charges."** Municipal Court in Zagreb accepted that and Prof. Dr. Dragica Kozarić-Kovačić actually declared Dr. Tomislav Dragun on September, 20 2006 - **insane.**

But, as the State Attorneys of RH failed with request considering the depriving of work capacity for Dr. Tomislav Dragun as a "ban on writing lawsuits and criminal charges", has taken new action.

(9)

Dr. Tomislav Dragun was charged and sentenced to four years imprisonment at the District Court in Slavonski Brod (K-32/04 from January, 8 2009), because he **encouraged** responsible person in the organization on substitution trading with stocks (shares of the company for shares of subsidiaries), and with that action provided for his companies, "Dragunov Ured," "Financijska Revizija Dragun" and "Prisika" from Zagreb **a difference in price**, and that it is **unlawful gain**.

Of course, those companies were sentenced, although they were not charged, nor were prosecuted!

Dr. Tomislav Dragun requested on April, 19 2010 international protection (refugee status) in the Republic of Slovenia, because he had been politically persecuted since 1945 first in Yugoslavia, and after in the Republic of Croatia, (he was with his father, who was NDH police officer, in Bleiburg, "the ultimate rightist", "Ustasha"), so this is just the culmination of the iceberg.

Now, however, Croatia insists on his extradition, pointing out that **there is no need to analyze the judgment**, which sentenced him to prison, because **"the Croatian judiciary perfectly meets all the criteria from Chapter 23 of accession negotiations, about the Croatian entry into the European Union"**.

And that Dr. Tomislav Dragun had been convicted for offenses **which are not criminal offenses in the Republic of Slovenia** nor in the European Union, and because of that is contrary to the **treaty between the Republic of Slovenia and Croatia About the Extradition (July, 8 1994)** - doesn't matter .

Dr. Tomislav Dragun is frightened to return to Croatia, because certainly **he will be liquidated** on the "natural way", as well as in **Vinkovci on November, 8 1991 was killed his oldest daughter Biserka**. Even after 20 years, although Dr. Tomislav Dragun filed criminal charges against an unknown perpetrator, to this day he did not receive any answer from the State Attorney's Office and Croatian police.

(10)

* * *

Dr. Tomislav Dragun wants to witness before the National Assembly of the Republic of Slovenia, and is willing to give interviews and Slovenian mass media.

Dr. Tomislav Dragun persecutors from the Croatia, the old Yugo-communist cadres and their adherents, are trying to prosecute him in the Republic of Slovenia, where the state authorities have their co-workers (with a lot of money).
